

Best performance in every step

MarCal 30 EWRI | Digital Caliper

The key to successful production is intelligent, efficient quality control. This comes down to both the simple and precise recording of measuring values and structured data processing. Mahr's portfolio of wireless devices offers maximum flexibility, allowing faster and more specific measurements, along with full transparency. You can increase your mobility without having to compromise on the traceability of measuring steps along the entire value chain.

\$453
4126755

Features:
