

Syracuse Supply's 28th Open House Showcases Multi-Industry Manufacturing Technologies

Syracuse Supply, a CNC manufacturing solutions provider, recently hosted its 28th Open House event at its facility in Buffalo, NY. The event offered attendees a firsthand look at high-performance CNC machine tools, tooling, accessories and software optimized for the fast-evolving manufacturing needs. Machines under power and demonstrated during the event included:

Brock Stokey with Allied Machine & Engineering

- DN Solutions DNM5700 Vertical Machining Center
- DN Solutions SMX2600ST Multi-Axis Lathe
- Sodick ALN400 G Linear Motor Drive Wire EDM
- Sodick AL40G Linear Motor Drive Sinker EDM
- Star CNC SD 26 Type E Swiss Type Lathe
- Star CNC SB-20RII Swiss Type Lathe
- United Machining Solutions Studer S23 "New" Universal Grinder
- TRAK MT TRL 1630RX Toolroom Lathe
- TRAK MT DPM RX3 Toolroom Mill

Additional applications, equipment, cutting tools, accessories and services were represented and demonstrated by Accutek, Aeroex, Allied Machine & Engineering, Big Daishowa, Bucci/IEMCA, Chick Workholding, Clausing Industrial Inc., Cutler Sales, 5th Axis, Haimer, Edge Technologies, EMUGE/Franken, ESPRIT, FANUC Robotics, GenSwiss, Hennig, Koma Precision, LNS/ChipBlaster, MD Tooling, MP Systems, Muratec/Murata Machinery, QualiChem, R&R Associates, Cosen, Artanz, Samchully Workholding, Royal Products, Sodick, US Bank Corp.

Dan Matticks with DN Solutions and the SMX2600ST Multi-Axis Lathe

Brian Caskey with Royal Products and the Rota-Rack

and Walter Tools. "With the attendance at our Open House of over 300 people, we are extremely pleased," said Kevin McCarthy, President of Syracuse Supply. "Current and prospective customers had a chance to see the newest features and automation that will keep them competitive for many years to come. The upstate NY manufacturing business has been very robust this year and we anticipate record sales thru the end of the year."
